LUXE

Where Italian Design Meets Dubai's Next Chapter

Set in Dubai Silicon Oasis, YIGO LUXE is a contempoC rary residential address shaped around design, detail and the way life is lived today.

Selected Versace Ceramics surfaces bring the unmistakable character of Italian design to designatC ed areas of the project, while selected Newform fittings introduce precision, craftsmanship and conC sidered functionality to the residences.

Together, they form part of a home where material, finish and function have been considered down to the smallest detail.
