## Façade Options

Throughout Al Naseem Community, there are two façade styles to choose from for all 4, 5 and 6-bedroom villas.

## South Californian Style

The elevation treatment of this villa captures the essence of Californian style with its sloped roof and incorporation of natural elements like wood. From the underside of the roof to the shading screens, pergolas and door finishes, wood features prominently, adding warmth and character. Expansive windows and terraces seamlessly merge the indoor and outdoor spaces, fostering an inviting and airy ambience while accommodating various external activities. Pergolas offer shade for outdoor living and dining areas, ensuring comfort throughout the day. The design prioritises clean lines and flat surfaces, enhancing the horizontal flow and overall openness of the interiors.

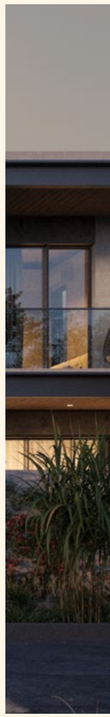

# Modern Contemporary Style

This contemporary aesthetic seamlessly merges modernity with a welcoming atmosphere. Drawing inspiration from opulent modernist architecture, the exterior design incorporates a harmonious blend of contemporary and minimalist elements. A striking combination of dark grey metal cornices and pristine white stucco walls characterises the elevation treatment. The expansive windows, adorned with timber panels, introduce a natural touch to the façade. These features, along with spacious terraces, seamlessly integrate indoor and outdoor spaces, creating an inclusive and airy ambience suitable for various activities, from intimate dining gatherings to rejuvenating yoga sessions. Pergolas play a pivotal role in the design, offering shade for bedroom terraces and communal dining areas in the garden, ensuring comfort throughout the day.
